SB¹ SELF-BOND® ROOF UNDERLAYMENT

APOC Weather-Armor® SB¹ Self-Bond® roof underlayment is a premium, all-purpose, granulated roof underlayment and leak barrier. SB¹ Self-Bond underlayment is ideal for use under shingle, slate, wood shake and other steep slope roofing materials. Engineered with high strength reinforcement, exceptional elasticity and a non-skid mineral finish, SB¹ provides a highly rubberized and flexible waterproofing membrane that helps keep your home or building dry and provides a cleaner and healthier environment to live in.

This product can be used over an entire roof deck or for sealing critical areas on your roof such as perimeter edges, valleys, details, metal joints and penetrations. For severe or harsh climates (ice, snow, strong winds or heavy rain), full roof coverage is recommended.

PRODUCT SPECS:

PRODUCT CODE	AP-4100-2
DIMENSIONS	36" x 66.7'
AREA	200 Sq.ft. Approx. 2 Squares
WEIGHT PER ROLL	70 lb

SEE TDS ON APOC.COM FOR ADDITIONAL PRODUCT DATA

USES:

- Use for steep slope roofing applications under primary roofing products
- Use under asphalt shingles, wood shake, slate and other roofing materials
- Ideal for perimeter edge, valleys & flashing details
- Great for roof deck and whole roof protection

FEATURES:

- Maximum flexibility and longevity
- Waterproof and nail sealable
- Protects against fire, wind and driving rain
- Protects against hail, snow and ice dams
- Strengthens and reinforces vulnerable joints
- Fiberglass reinforced for enhanced dimensional stability
- Prevents wrinkling and buckling when exposed to weather
- Helps stop ice, water and moisture damage
- UV Protected and temperature resistant up to 90 Days
- Exceeds performance requirements of ASTM D1970 & AC 48. Florida Building Code approved. UL Classified File #R39178. TDI listed.
